

## MCM Setup Notes

Mod	Notes
Skyrim Souls (External Setup)	Unfreeze feature disabled for console, level up menu, message box menu, and training menu <sup>1</sup>
Initial Setup (pre-MCM)	<ol style="list-style-type: none"> <li>1. Accept the basic prisoner without customization other than race and sex (we'll be back)<sup>2</sup></li> <li>2. Acknowledge initial message cards as various mods start up</li> <li>3. Answer the Dovahkiin's Infamy questionnaire to configure the mod.</li> <li>4. Let the debug messages finish scrolling</li> <li>5. Answer the YPS questionnaire when it appears: <ol style="list-style-type: none"> <li>a. For females/futanari, choose "head and body hair"</li> <li>b. For males, choose "body hair only"<sup>3</sup></li> <li>c. For Argonians of either sex choose neither</li> </ol> </li> <li>6. Save the game, quit to desktop, and reload before continuing. This should jog loose a couple of historically "sticky" MCM menus.</li> </ol>
Sexlab	<p>Animation Settings (if unspecified, leave at default):</p> <ul style="list-style-type: none"> <li>• Auto Advance Stages -&gt; Off</li> <li>• Disable Victim Controls -&gt; On</li> <li>• Automatic Free Camera -&gt; <b>Leave off</b><sup>4</sup></li> <li>• Apply Facial Expressions -&gt; On</li> <li>• Play Ending Orgasm Effects -&gt; On</li> <li>• Use Separate Orgasms -&gt; On</li> <li>• Cum Timer -&gt; 600 seconds</li> <li>• Limited Stripping -&gt; On</li> <li>• NPC Use Beds -&gt; Sometimes</li> <li>• Ask for Bed -&gt; When not victim</li> <li>• Allow Creature Animations -&gt; On</li> <li>• Pre-sex Foreplay -&gt; On</li> <li>• Undress Animations -&gt; On</li> </ul> <p>Voices and SFX</p> <ul style="list-style-type: none"> <li>• Choose player's voice (optional but recommended)</li> </ul> <p>Timers &amp; Stripping</p> <ul style="list-style-type: none"> <li>• Enable stripping slot 48 for both male and female</li> </ul>
SL Animation Loader	Enable all, then register. Wait until they are done registering.
A Matter of Time	Enable moon phases and season

<sup>1</sup> May need to also freeze barter menu to get Faction Economy to work – for future builds

<sup>2</sup> This is somewhat important because an engine bug in SSE can occasionally cause a hard freeze immediately after accepting the character.

<sup>3</sup> Males can choose hair management also, but you may experience some irregularities such as scalp clipping with some hairstyles.

<sup>4</sup> Free camera has a number of known issues with Sexlab that causes other features to fail to render when it's active
